Objective

To educate consumers and communities about alcohol and its effects.
To inspire young adults (18 - 25-year-olds) to follow the “responsible” way of drinking.
To encourage young adults to take part by sharing, liking and reacting to the videos.

Description

Although alcohol consumption in Greece is seen as part of the “Mediterranean lifestyle”, there are still social issues related to irresponsible alcohol consumption such as drinking and driving and growing underage drinking.

Therefore, the Responsible Alliance decided select a popular social media influencer to be their “voice” (ambassador) in addressing young adults through a series of thematic videos. Ilenia Williams is a TV presenter, singer, journalist and YouTuber. She is a popular and socially sensitive influencer.

A series of 6 videos were created, each on a different topic. Each video also featured a celebrity guest who shared their thoughts, experiences and tips on alcohol depending on their speciality and professional experience.
