

Drink Wisely

Vinum Et Spiritus / #DrinkWijs

Objective

- To raise awareness of responsible alcohol consumption.
- To inform consumers about the dangers of drink driving.
- To significantly reduce the number of fatalities and serious injuries caused by driving while intoxicated.

Description

Vinum Et Spiritus and the Emilie Leus Fund started working together in 2018 to raise awareness of responsible alcohol consumption. They have joined together to carry out a variety of projects:

- In November 2018, “Alcoscans” (an electronic breathalyser specifically designed for public use) installed in parking lots and ontrade businesses. The Alcoscan allows the consumer to drive safely and responsibly as they can at all times check whether they are over the permitted amount of alcohol in their body. The action started in Flanders but the hope is to spread it to Brussels and Wallonia.
- 10 – 19 October 2018, Brussels Expo – Megavino: Visitors at the Megavino wine and spirits fair received information about responsible drinking and were encouraged not to drive after drinking. Alcotests with the “No drunk driving” message were distributed and the Aksident theatre group actively encouraged visitors to test their blood alcohol level. If the visitor was over the limit, Taxis Verts provided them with a safe ride home.
- On 22 April 2019, Vinum Et Spiritus offered the first ten registrations (each worth 25€) for the charity race organised by the Emilie Leus Fund.
